PERSONAL STATEMENT

Aspiring Healthcare Data Analyst with a foundation in medicine and biomedical sciences and a growing expertise in **Excel, SQL, Python, and Power BI**. Experienced in analysing complex healthcare and AI-related information, developing structured evaluation frameworks, and maintaining high standards of data quality. Motivated to transform healthcare data into actionable insights that enhance operational efficiency, patient outcomes, and evidence-based decision-making.

KEY SKILLS

- **Data Analysis & Visualisation** – Analyse, clean and interpret data using Microsoft Excel and Power BI, creating PivotTables, dashboards and visual reports to communicate insights.
- **Statistical Analysis** – Apply statistical methods including descriptive statistics and distribution analysis to identify patterns and support data-driven conclusions.
- **SQL & Python** – Working knowledge of SQL and Python for querying, cleaning, transforming and analysing datasets.
- **AI Evaluation & Quality Assurance** – Evaluate AI-generated outputs for accuracy, relevance, consistency and quality, applying structured evaluation criteria and attention to detail.
- **Analytical Thinking & Problem-Solving** – Use structured analytical approaches to identify issues, investigate root causes and develop effective, evidence-based solutions.
- **Communication & Teamwork** – Communicate findings and technical information clearly and collaborate effectively with others to solve problems and achieve shared objectives.

EXPERIENCE

Data Analytics Programme – Generation UK & I – July -September 2026 - Remote

- Developed practical skills in Excel, SQL, Python, Power BI, and data visualisation
- Analysed, cleaned and interpreted datasets to identify trends and insights.
- Applied descriptive statistics, hypothesis testing, and exploratory data analysis (EDA).
- Created charts, pivot tables, reports, and interactive dashboards
- Used GitHub, Agile, Scrum and project-management principles
- Completed practical assessments, projects, and problem-solving challenges
- Strengthened teamwork, communication, presentation, and employability skills

WORK EXPERIENCE

Medical AI-Trainer, Outlier, Remote, Oct 2025 - Jan 2026

Evaluated and improved AI model performance by designing complex medical prompts and assessing responses against structured quality and reasoning criteria.

- Designed complex medical prompts to evaluate AI performance and identify reasoning gaps.
- Developed structured scoring rubrics to ensure consistent and objective AI response evaluation.
- Maintained a 3.4 average reviewer score by delivering accurate, high-quality evaluations.
- Adapted quickly to evolving clinical and AI evaluation guidelines in a fast-paced environment.

General Practitioner, Primary & Secondary School AI Irsyad, Indonesia, Feb 2022-Feb 2024

Managed student healthcare data and delivered clinical assessments and health programmes to support informed health and wellbeing decisions.

- Managed student health records and prepared routine health reports to support informed healthcare decisions.
- Conducted health screenings and analyzed clinical findings to identify health risks and recommend appropriate interventions.
- Coordinated with local healthcare providers to deliver immunization programs and follow-up care.

External General Practitioner, Halodoc, Remote, June 2020-Dec 2023

Provided remote clinical consultations by analysing patient information, assessing risk and making evidence-based decisions on treatment and referral.

- Delivered remote consultations by assessing patient symptoms and recommending evidence-based treatment plans.
- Analysed clinical information to triage cases and identify patients requiring urgent care or specialist referral.
- Participated in continuous training and webinars to stay current with clinical guidelines and best practices.

Medical Consultant, Larissa Aesthetic Center, Indonesia, Feb 2019-Feb 2021

Provided patient assessments and evidence-based treatment recommendations while maintaining high standards of accuracy, safety and quality.

- Assessed patient conditions and analysed clinical findings to recommend evidence-based treatment plans.
- Performed aesthetic procedures with a strong focus on accuracy, safety, and quality standards.
- Collaborated with colleagues to coordinate care and continuously improve treatment quality.

Internship GP, PTPN X Hospital & Kaliwates Community Health Center, Indonesia Feb 2017-Feb 2018

Supported clinical decision-making across emergency, outpatient and community healthcare settings while maintaining accurate documentation and effective multidisciplinary collaboration.

- Evaluated patient information to support clinical decision-making in emergency and outpatient settings.
- Performed clinical procedures while ensuring accurate documentation and adherence to medical protocols.
- Collaborated with multidisciplinary teams to coordinate patient care and treatment plans.
- Participated in community health initiatives and professional training to strengthen clinical knowledge and communication skills.

EDUCATION AND CERTIFICATIONS

Microsoft Certified: Power Platform Fundamentals (PL-900), Microsoft, Sept 2026
 Health Information Technology Fundamentals, John Hopkins University (Online), 2024
 Medical Coding and EHR Application, Udemy (Online), 2024
 Master of Biomedical Sciences, University of Brawijaya, Indonesia 2019
 GPA: 3.80/4.00
 Doctor of Medicine, University of Brawijaya, Indonesia, 2017
 GPA:3.75/4.00

INTERESTS

Baking & Reading – Baking has strengthened my patience, attention to detail, and persistence through continuous improvement. I also enjoy reading, currently exploring *Dopamine Nation* by Anna Lembke to enhance my curiosity, critical thinking, and understanding of human behaviour.
